Webinar

Webinar

June 2024 (Great Neck, NY)

We will discuss how NonStop applications can interface with Kafka and leverage its many benefits using uLinga for Kafka.

In this webinar, you will learn:

- What is Kafka?
- Understand Kafka Basics
- Kafka features and benefits
- Use Cases

This webinar has passed, Hope to see you on the next one

JSON

May 2024 (Great Neck, NY)

JSON Thunder enables COBOL programs to read and write JSON documents so they can:

- exchange data in JSON format with other applications and companies.
- use JSON messages to call web services or interface with third-party packages and non-COBOL applications.
- create JSON APIs for COBOL programs - enabling them to provide web services or be called by non-COBOL applications.

New York Tandem User Group

May 2024 (Great Neck, NY)

We extend our gratitude to everyone who joined TIC Software, your trusted NonStop partner, as we celebrate Tandem's golden anniversary. We reflected on how the platform's core principles remain relevant today while recognizing the need for a growth strategy that looks beyond these principles for the future.

During our NYTUG session, TIC Software CEO Phil Ly discussed Tandem's 50-year milestone and highlighted how TIC Software can assist in modernizing your NonStop environment, innovating with next-generation solutions, and educating your team to maximize the value and longevity of your NonStop platform.

S3Utils™: Data Transfer for HPE NonStop and AWS Storage

April 2024 (Great Neck, NY)

Data Transfer for HPE NonStop and AWS Storage
Easily transfer data between your Native NonStop Applications and your Enterprise cloud AWS Simple Storage Server (S3)

Since the introduction of AWS Simple Storage Service (S3), S3 compatible object services have become highly popular, with each of the major cloud services providing S3 compatible storage, and a number of "S3 only" storage services also available.
