The Importance of "Human In the Loop" for Successful AI adoption

January 2026 (Great Neck, NY)
We are excited to introduce our AI-powered documentation tool, TIC Navigator, at this year's TBC. It was very well received, and many NonStop users have since asked to learn more about TIC Navigator and about AI in general—especially how it can help solve real problems in their environments.

AI can absolutely help customers move faster. But in our experience, real success comes from people working together. As Chief Customer Success Officer at TIC Software, my job is to bring those two pieces together: powerful AI-driven tools like TIC Navigator, and a very human, very personal way of working with every customer.

Read TIC Talk

Webinar

June 2024 (Great Neck, NY)
We will discuss how NonStop applications can interface with Kafka and leverage its many benefits using uLinga for Kafka.

In this webinar, you will learn:

- What is Kafka?
- Understand Kafka Basics
- Kafka features and benefits
- Use Cases

This webinar has passed, Hope to see you on the next one

JSON

May 2024 (Great Neck, NY)
JSON Thunder enables COBOL programs to read and write JSON documents so they can:

- exchange data in JSON format with other applications and companies.
- use JSON messages to call web services or interface with third-party packages and non-COBOL applications.
- create JSON APIs for COBOL programs - enabling them to provide web services or be called by non-COBOL applications.

New York Tandem User Group

May 2024 (Great Neck, NY)
We extend our gratitude to everyone who joined TIC Software, your trusted NonStop partner, as we celebrate Tandem's golden anniversary. We reflected on how the platform's core principles remain relevant today while recognizing the need for a growth strategy that looks beyond these principles for the future.

During our NYTUG session, TIC Software CEO Phil Ly discussed Tandem's 50-year milestone and highlighted how TIC Software can assist in modernizing your NonStop environment, innovating with next-generation solutions, and educating your team to maximize the value and longevity of your NonStop platform.
