Training

We provide just-in-time training solutions customized to your needs.

Do you need to bring in a new team member that doesn't know Tandem? We can help!
By providing customized training, we get your new member productive on the Tandem in a matter of days.

Do you need to understand new technology and how NonStop can leverage them?
We can explain new technologies such as Web Services, Cloud, Security in terms that NonStop folks can comprehend easily.

TIC Software Fast Track Training Service

TIC Software's new approach enables new Operation team members with Windows or Linux background to learn NonStop quickly. This new methodology, together with use of the GUI tool TOP will lower the learning curve for new team members to become productive on the NonStop in no time.
